LIMITED EDITION LAUNCH OF THE

NEEL43 PERFORMANCE

NEEL-TRIMARANS, the world leader in the construction and marketing of cruising trimarans, announces the launch of a limited edition of its successful model, the NEEL 43. Already renowned for its exceptional performance, the NEEL 43 PERFORMANCE pushes the boundaries by featuring high-end technical characteristics and offering a limited series of only 10 units.

The NEEL 43, already recognized for its unrivaled performance and innovative design, incorporates a carbon mast and textile rigging for this limited series. The carefully selected hardware is of high quality, including winches, a furler, and a Karver® captive winch. The limited edition of the NEEL 43 PERFORMANCE also includes carbon structural bulkheads and roof stringers, reinforcing the boat's structure and further improving its strength and lightness. While this edition brings significant improvements, the boat's interior layout remains unchanged. Customers will still benefit from a comfortable, functional, and bright interior that has made the NEEL 43 famous.
